GET INVOLVED!!

Sandown Town Centre was identified as having the special historic interest and character that merited conservation area designation. It is now 'At Risk' and in decline - those elements that contribute to its identity and character are slowly and progressively being eroded.

The Isle of Wight Council has appointed Murphy Associates / The Conservation Studio to produce a Sandown Conservation Area Appraisal Management Plan building on the content of the existing Character Appraisal. The intention is identify how change can be managed, improvements can be realised, how joined-up working can benefit the area and where other initiatives and projects can be harnessed to act as catalysts for change. Managing and Improving the conservation area is a shared responsibility!

*"They hunted till darkness came on, but they found
Not a button, or feather, or mark,
By which they could tell that they stood on the ground
Where the Baker had met with the Snark.
In the midst of the word he was trying to say,
In the midst of his laughter and glee,
He had softly and suddenly vanished away—
For the Snark was a Boojum, you see."
The Hunting the Snark, Lewis Carroll*

YOUR VIEWS MATTER!!
