

Lake

Lake is the “Hidden Green Heart” of the Bay Area

- All sites need to work for Local People
- Pockets of 5 x Green Spaces that could be better connected together
- Needs an activation for each space?
- Different spaces for different uses:
 1. Lake Cliff Gardens
 2. Site of New Road Toilets (soon to be demolished?)
 3. Manor Road Play Park
 4. Land behind the Broadlea Primary School Playing Fields
 5. Copse Mead Nature Reserve

“Spectrum of Change” – Timeline Exercise

The final afternoon of the Three-Day think Space included a timeline exercise, exploring how different aspects of life in the Bay Area could be influenced moving forwards.

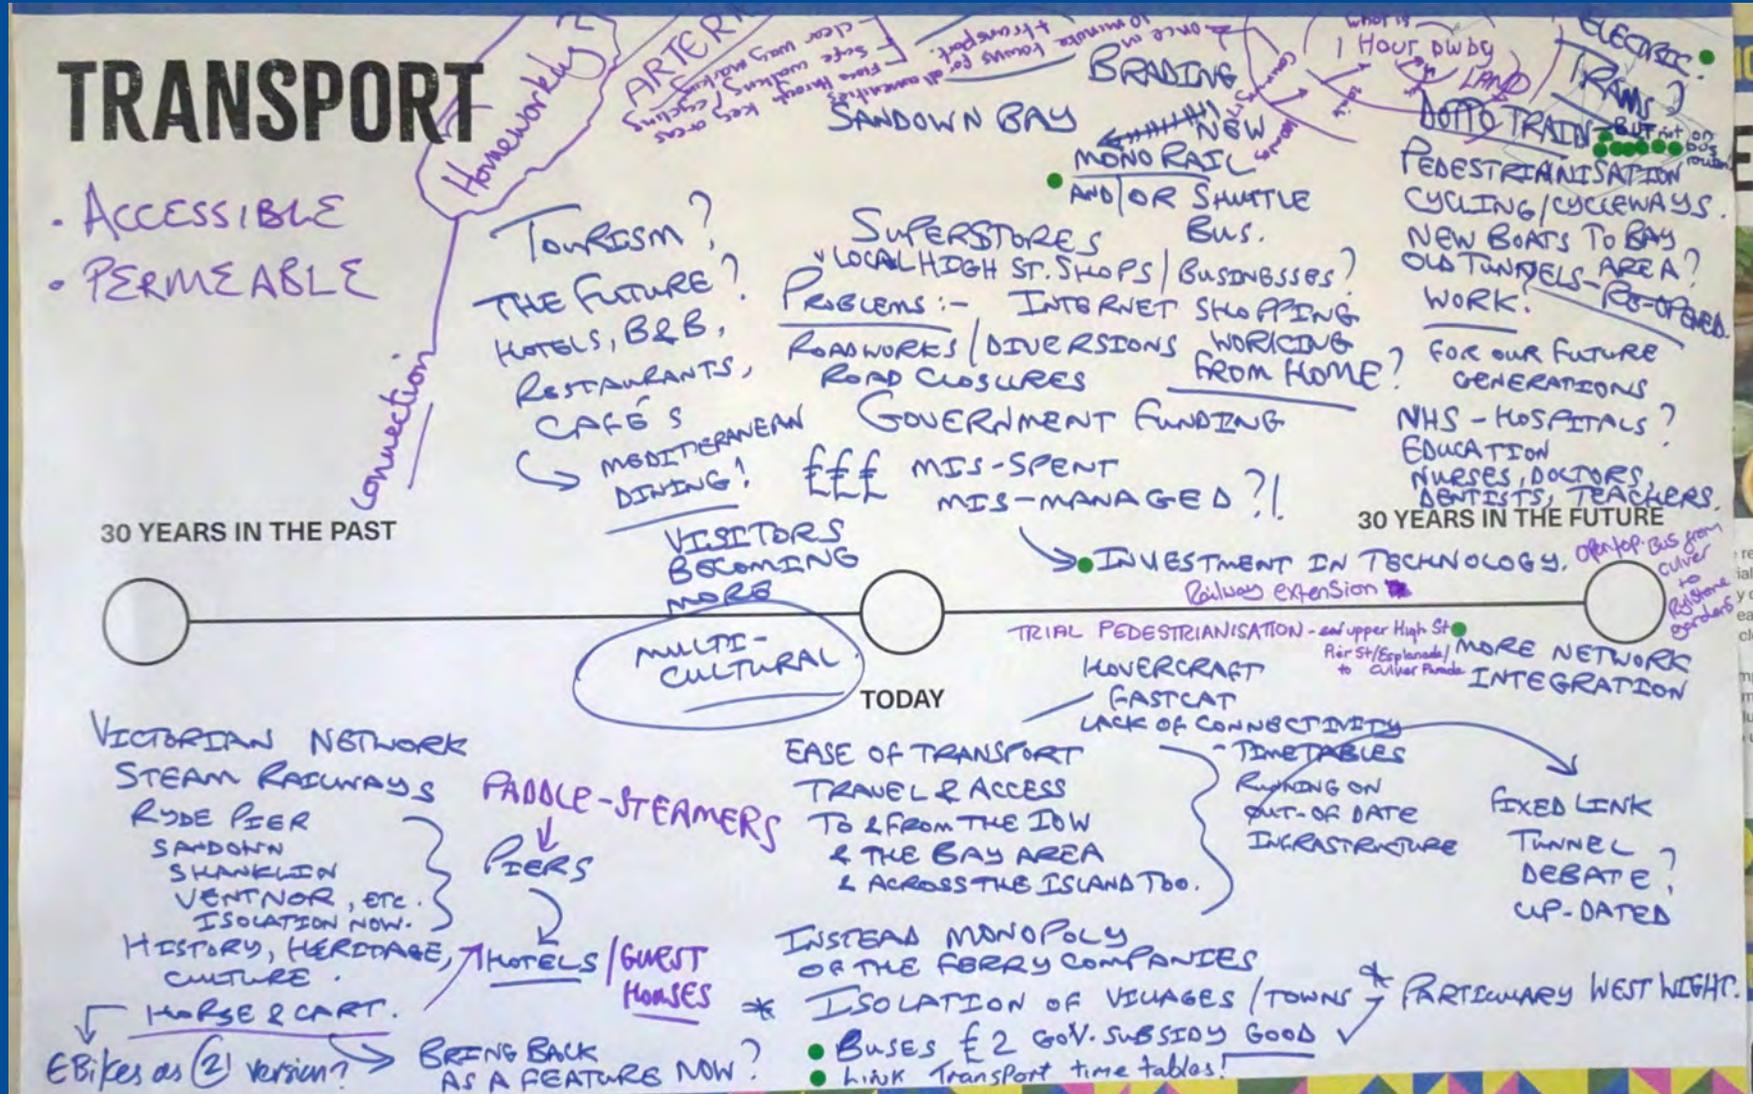

In this image, Rosanna from the Project Team explains to the participants how the task works and what to do.

"Spectrum of Change" – Timeline Exercise

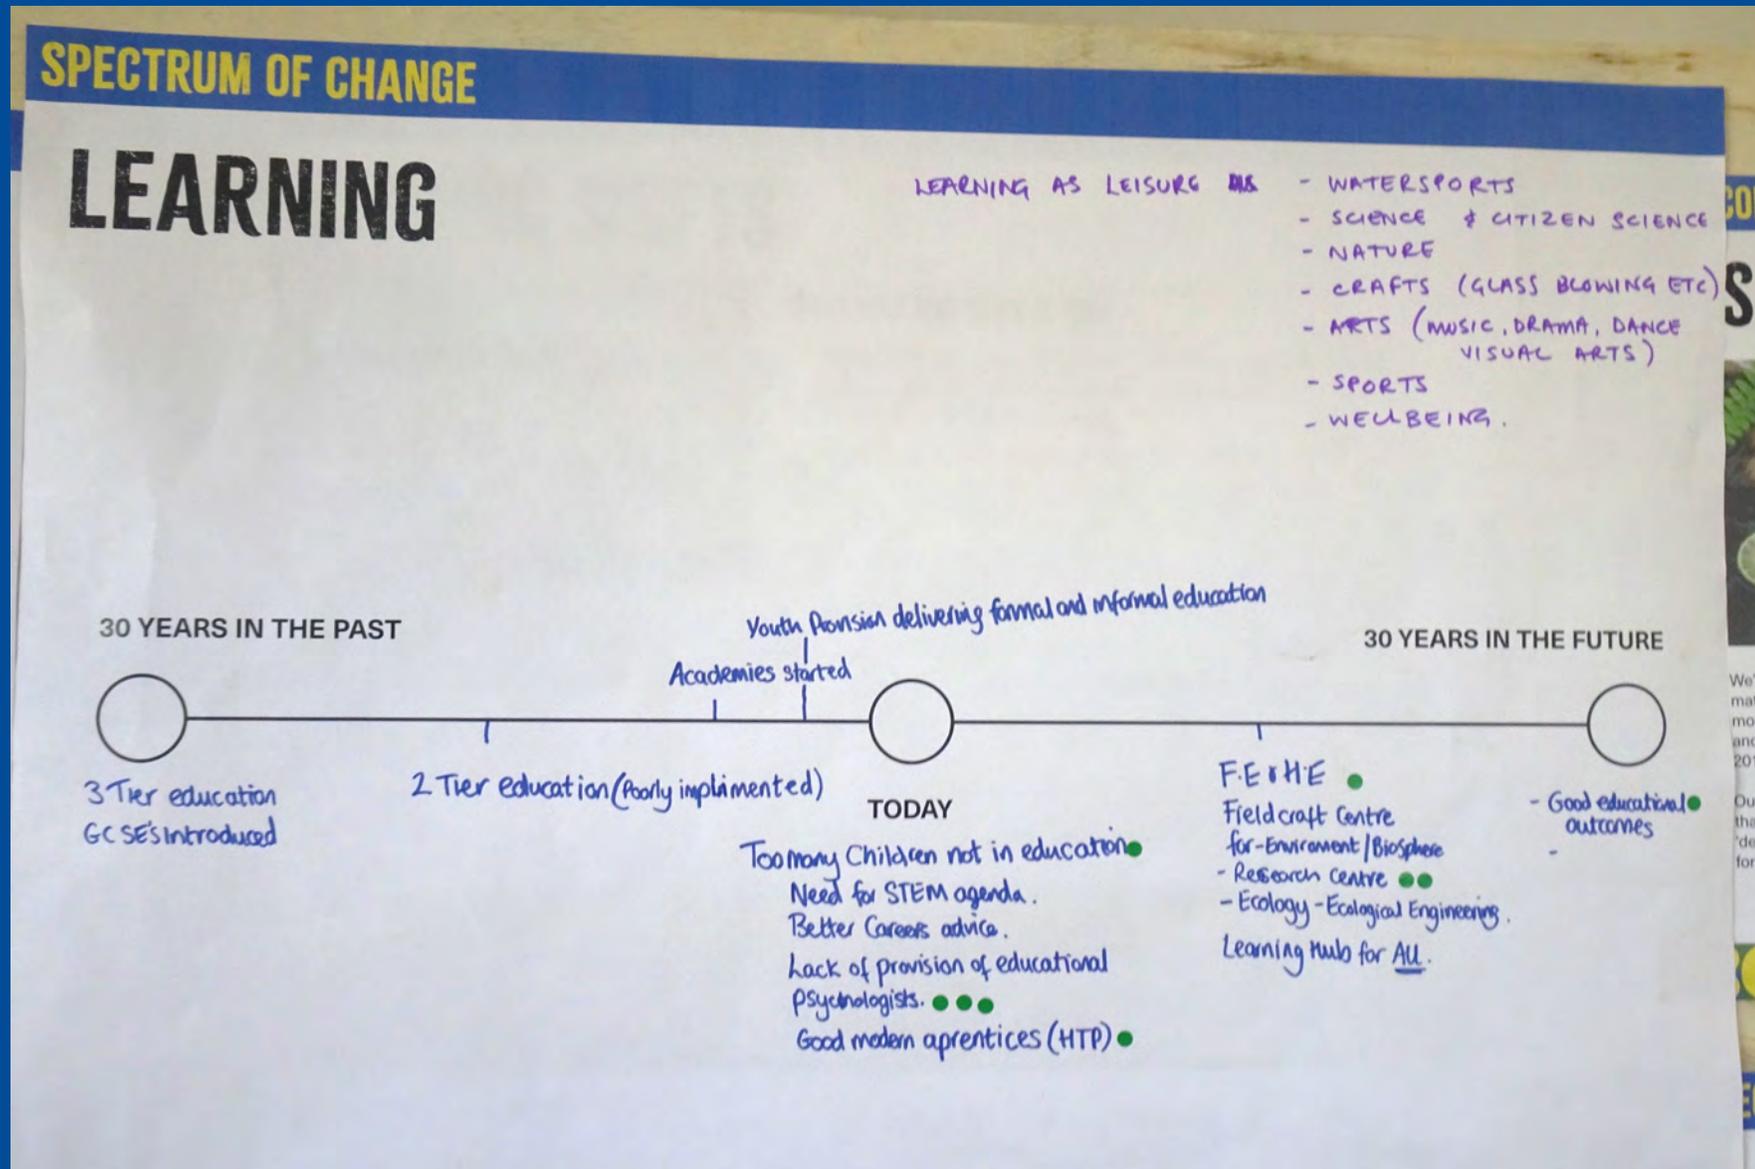

Here is a photo of the results for the ENTERTAINMENT, CULTURE & PLAY topic.

"Spectrum of Change" – Timeline Exercise

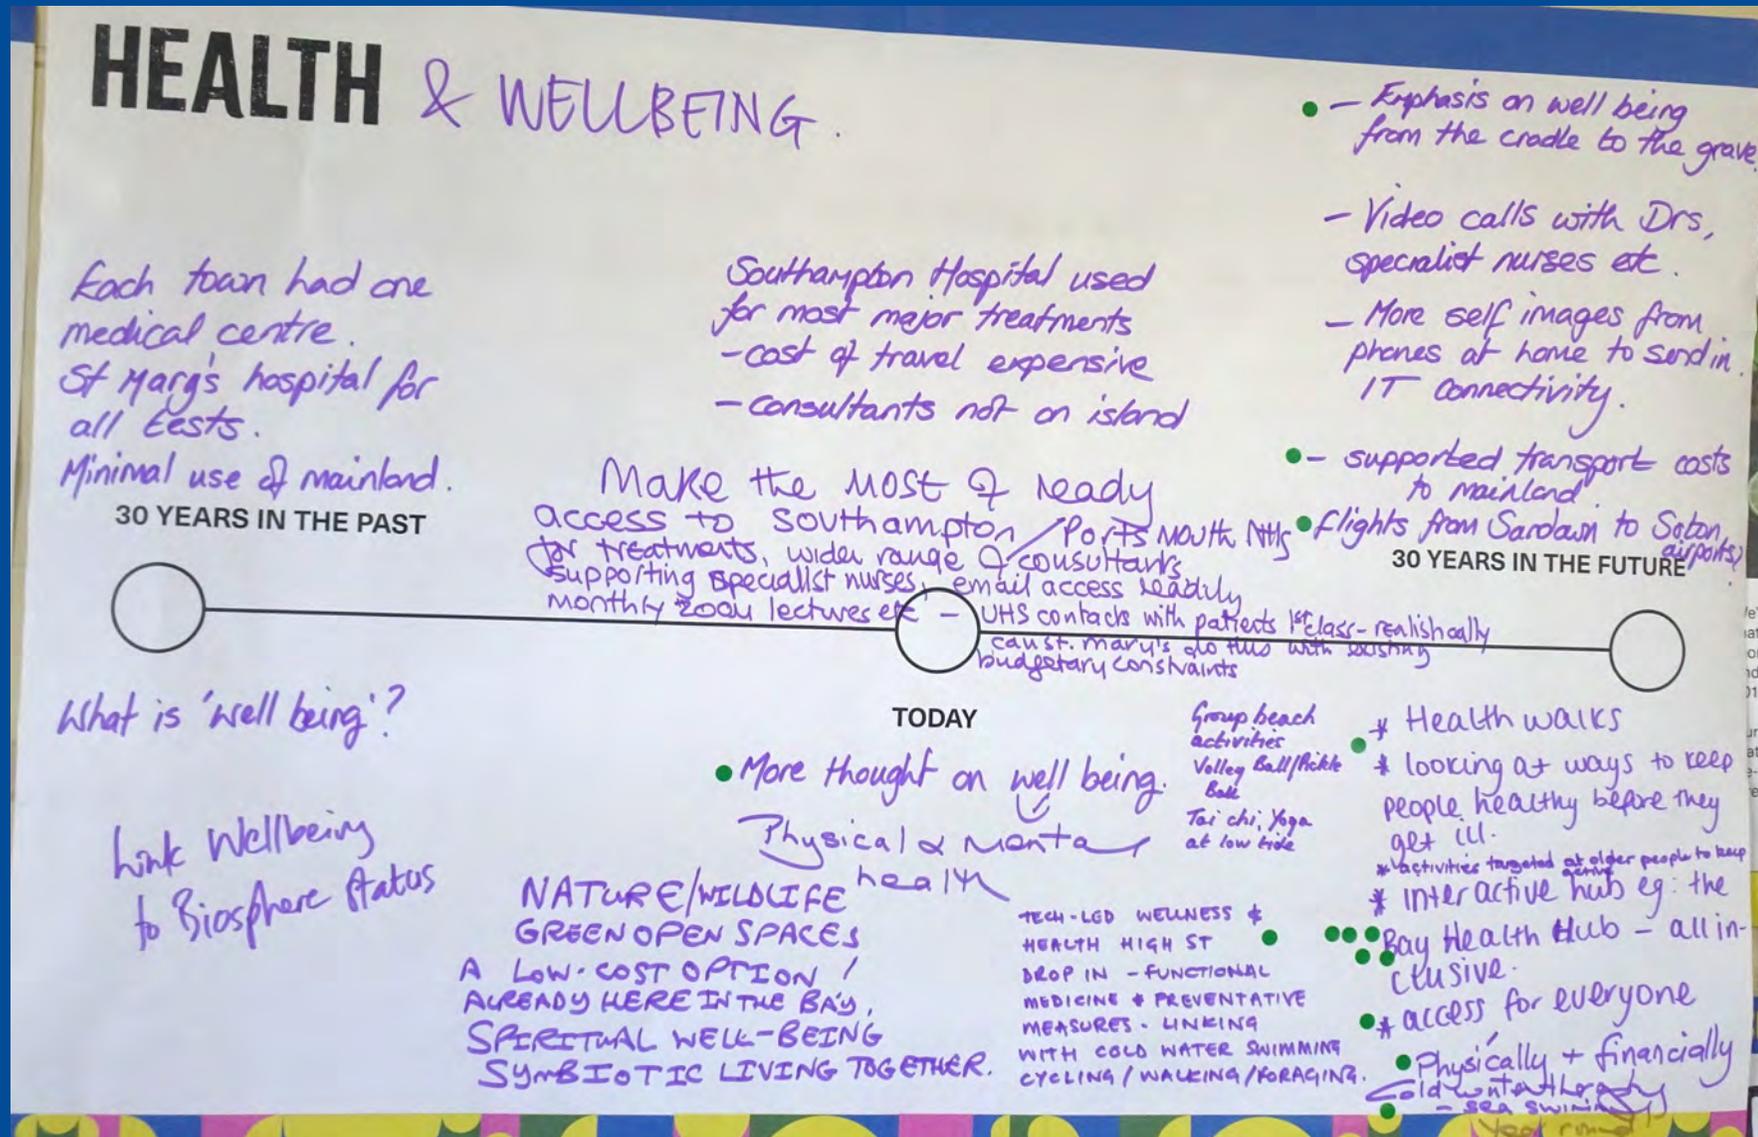

Here is a photo of the results for the TRANSPORT topic.

“Spectrum of Change” – Timeline Exercise

Here is a photo of the results for the LEARNING topic – not quite as busy as the other posters?

"Spectrum of Change" – Timeline Exercise

Here is a photo of the results for the HEALTH & WELLBEING topic.

“Spectrum of Change” – Timeline Exercise

Nature

- Cultural & Ecological “mash-ups”
- “Sculpture as habitat, Habitat as art”

Health

- Emphasis on wellbeing from cradle to grave
- All-inclusive Bay Area health hub

Learning

- Learning hub for ALL – for FE and HE
- More research centres and field craft centres = Good educational outcomes

After an initial review, looking over all the Spectrum of Change posters, these are the headline results.

Further analysis will be undertaken to reach a final consensus across these different topics.

“Spectrum of Change” – Timeline Exercise

Transport

- Bring back the DOTTO train! 😊
- Investment in tech and alternative transport options

Entertainment, Culture + Play

- Town maps and trails
- Online and offline
- Murals and street art
- Sponsored music hotspots for busking

After an initial review, looking over all the Spectrum of Change posters, these are the headline results.

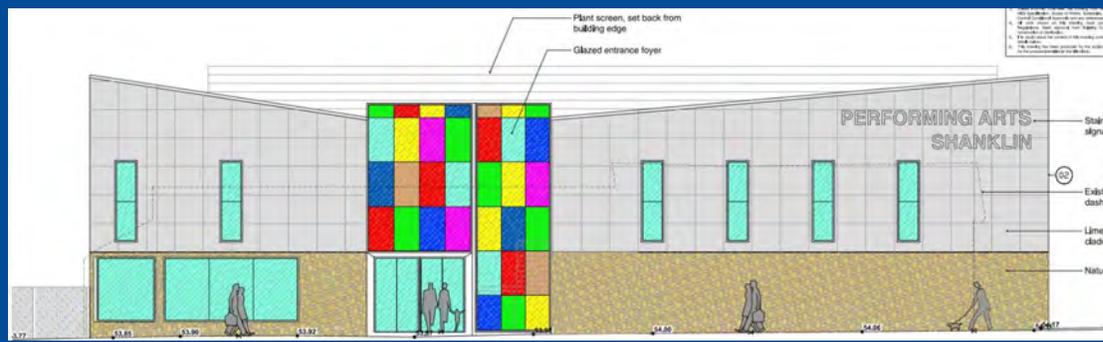

Further analysis will be undertaken to reach a final consensus across these different topics.

Further Contributions from Participants

Why do you go to the High Street?

Performing Arts Shanklin Proposal & Hullabaloo

As the third day unfolded, the Project Team were given contributions from participants to include in the Bay Area Place Plan. Shown here are ideas from a local resident for pop-up pods and kiosks designed to reanimate the high street. Another contribution was existing ideas for new investment in the Shanklin Performing Arts.

This captures how the Bay Area Place Plan can work.... It will provide an overarching set of themes and principles that will create a framework into which existing and new project ideas can be slotted.

The Place Plan will allow the ideas as shown here, and others besides, to find a "home" and be coordinated, promoted and supported effectively.
