

GENERAL DATA PROTECTION REGULATION POLICY

Purpose of the policy and background to the General Data Protection Regulation

This policy explains to Councilors', staff and the public about GDPR. Personal data must be processed lawfully, fairly and transparently; collected for specified, explicit and legitimate purposes; be adequate, relevant and limited to what is necessary for processing; be accurate and kept up to date; be kept only for as long as is necessary for processing and be processed in a manner that ensures its security. This policy updates any previous data protection policy and procedures to include the additional requirements of GDPR which apply in the UK from May 2018. The Government have confirmed that despite the UK leaving the EU, GDPR will still be a legal requirement. This policy explains the duties and responsibilities of the council and it identifies the means by which the council will meet its obligations.

Identifying the roles and minimising risk

GDPR requires that everyone within the council must understand the implications of GDPR and that roles and duties must be assigned. The Council is the data controller and the Town Clerk /RFO is the Data Protection Officer (DPO). It is the DPO's duty to undertake an information audit and to manage the information collected by the council, the issuing of privacy statements, dealing with requests and complaints raised and also the safe disposal of information.

GDPR requires continued care by everyone within the council, Councilors' and staff, in the sharing of information about individuals, whether as a hard copy or electronically. A breach of the regulations could result in the council facing a fine from the Information Commissioner's Office (ICO) for the breach itself and also to compensate the individual(s) who could be adversely affected. Therefore, the handling of information is seen as medium risk to the council (both financial and reputation) and one which must be included in the Risk Management Policy of the council. Such risk can be minimised by undertaking an information audit, issuing privacy statements, maintaining privacy impact assessments (an audit of potential data protection risks with new projects), minimising who holds data protected information and the council undertaking training in data protection awareness.

Data breaches

One of the duties assigned to the DPO is the investigation of any breaches. Personal data breaches should be reported to the DPO for investigation. The DPO will conduct this with the support of the Town Council. Investigations must be undertaken within one month of the report of a breach. Procedures are in place to detect report and investigate a personal data breach. The ICO will be advised of a breach (within 3 days) where it is likely to result in a risk to the rights and freedoms of individuals – if, for example, it could result in discrimination, damage to reputation, financial loss, loss of confidentiality, or any other significant economic or social disadvantage. Where a breach is likely to result

in a high risk to the rights and freedoms of individuals, the DPO will also have to notify those concerned directly.

It is unacceptable for non-authorized users to access IT using employees' log-in passwords or to use equipment while logged on. It is unacceptable for employees, volunteers and members to use IT in any way that may cause problems for the Council, for example the discussion of internal council matters on social media sites could result in reputational damage for the Council and to individuals.

Privacy Notices (Appendix A)

Being transparent and providing accessible information to individuals about how the Council uses personal data is a key element of the Data Protection Act 1998 (DPA) and the EU General Data Protection Regulation (GDPR). The most common way to provide this information is in a privacy notice. This is a notice to inform individuals about what a council does with their personal information. A privacy notice will contain the name and contact details of the data controller and Data Protection Officer, the purpose for which the information is to be used and the length of time for its use. It should be written clearly and should advise the individual that they can, at any time, withdraw their agreement for the use of this information. Issuing of a privacy notice must be detailed on the Information Audit kept by the council. The council will adopt a privacy notice to use, although some changes could be needed depending on the situation, for example where children are involved. All privacy notices must be verifiable.

Information Audit

The DPO must undertake an information audit which details the personal data held, where it came from, the purpose for holding that information and with whom the council will share that information. This will include information held electronically or as a hard copy. Information held could change from year to year with different activities, and so the information audit will be reviewed at least annually or when the council undertakes a new activity. The information audit review should be conducted ahead of the review of this policy and the reviews should be minuted.

Individuals' Rights

GDPR gives individuals rights with some enhancements to those rights already in place:

- the right to be informed
- the right of access
- the right to rectification
- the right to erasure
- the right to restrict processing
- right to data portability
- the right to object
- the right not to be subject to automated decision-making including profiling.

The two enhancements of GDPR are that individuals now have a right to have their personal data erased (sometimes known as the 'right to be forgotten') where their personal data is no longer necessary in relation to the purpose for which it was

originally collected and data portability must be done free of charge. Data portability refers to the ability to move, copy or transfer data easily between different computers.

If a request is received to delete information, then the DPO must respond to this request within a month. The DPO has the delegated authority from the Council to delete information.

If a request is considered to be manifestly unfounded then the request could be refused or a charge may apply. The charge will be as detailed in the Council's Freedom of Information Publication Scheme. The Town Council will be informed of such requests.

Children

There is special protection for the personal data of a child. The age when a child can give their own consent is 13. If the council requires consent from young people under 13, the council must obtain a parent or guardian's consent in order to process the personal data lawfully. Consent forms for children age 13 plus, must be written in language that they will understand.

Summary

The main actions arising from this policy are:

- The Council must be registered with the ICO.
- A copy of this policy will be available on the Council's website. The policy will be considered as a core policy for the Council.
- An information audit will be conducted and reviewed at least annually or when projects and services change.
- Privacy notices must be issued.
- Data Protection will be included on the Council's Risk Management Policy.
- The Town Council will manage the process.

This policy document is written with current information and advice. It will be reviewed at least annually or when further advice is issued by the ICO.

All employees, volunteers and Councilors' are expected to comply with this policy at all times to protect privacy, confidentiality and the interests of the Council.

SANDOWN TOWN COUNCIL

GENERAL PRIVACY NOTICE

Your personal data – what is it?

“Personal data” is any information about a living individual which allows them to be identified from that data (for example a name, photographs, videos, email address, or address). Identification can be directly using the data itself or by combining it with other information which helps to identify a living individual (e.g. a list of staff may contain personnel ID numbers rather than names but if you use a separate list of the ID numbers which give the corresponding names to identify the staff in the first list then the first list will also be treated as personal data). The processing of personal data is governed by legislation relating to personal data which applies in the United Kingdom including the General Data Protection Regulation (the “GDPR”) and other legislation relating to personal data and rights such as the Human Rights Act.

What is the legal basis for processing your personal data?

The council is a public authority and has certain powers and obligations. Most of your personal data is processed for compliance with a legal obligation which includes the discharge of the council's statutory functions and powers. Sometimes when exercising these powers or duties it is necessary to process personal data of residents or people using the council's services. We will always take into account your interests and rights. This Privacy Notice sets out your rights and the council's obligations to you.

We may process personal data if it is necessary for the performance of a contract with you, or to take steps to enter into a contract. An example of this would be processing your data in connection with the use of sports facilities, or the acceptance of an allotment garden tenancy. Sometimes the use of your personal data requires your consent. We will first obtain your consent to that use.

Sharing your personal data

This section provides information about the third parties with whom the council may share your personal data. These third parties have an obligation to put in place appropriate security measures and will be responsible to you directly for the manner in which they process and protect your personal data. It is likely that we will need to share your data with some or all of the following (but only where necessary):

- The data controllers listed above under the heading "Other data controllers the council works with";
- Our agents, suppliers and contractors. For example, we may ask a commercial provider to publish or distribute newsletters on our behalf, or to maintain our database software;

- On occasion, other local authorities or not for profit bodies with which we are carrying out joint ventures e.g. in relation to facilities or events for the community.

How long do we keep your personal data?

We will keep some records permanently if we are legally required to do so. We may keep some other records for an extended period of time. For example, it is currently best practice to keep financial records for a minimum period of 8 years to support HMRC audits or provide tax information. We may have legal obligations to retain some data in connection with our statutory obligations as a public authority. The council is permitted to retain data in order to defend or pursue claims. In some cases the law imposes a time limit for such claims (for example 3 years for personal injury claims or 6 years for contract claims). We will retain some personal data for this purpose as long as we believe it is necessary to be able to defend or pursue a claim. In general, we will endeavour to keep data only for as long as we need it. This means that we will delete it when it is no longer needed.
